Comanche Detour Returns May 24

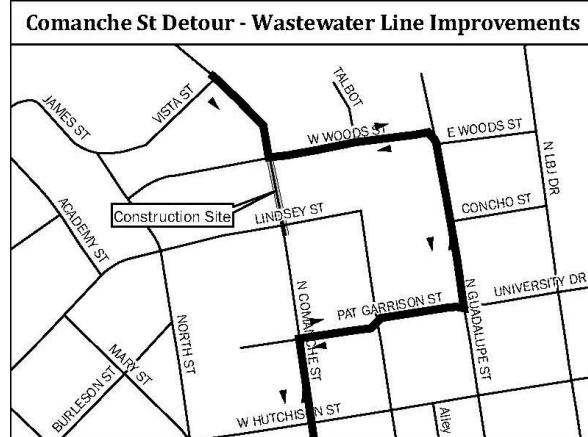

Comanche Block to Close for Final Upgrade

Beginning Monday, May 24, a block of Comanche Street between Woods and Lindsey Streets will be closed to complete final street repaving, manhole coatings and associated restriping due to a recent wastewater line installation. These are the final punch list items for the project.

This section of Comanche will remain closed to through traffic for several days. Traffic will be detoured to North Guadalupe, Pat Garrison, and West Woods Street.

Residents in the construction zone will have access to all driveways and mailboxes during the construction.

Motorists are reminded to use caution in and around construction zones.

Following completion of this final repaving and striping, construction of a new 12-inch water line on Comanche from W. Hutchinson Street to W. Martin Luther King Drive will begin. This section of Comanche will be closed to through traffic for approximately four weeks.

For more information on the project, please call the Capital Improvements Department at 512.393.8130.
